VALBRIDGE PROPERTY ADVISORS TECHNOLOGY SUITE

V-AMS: ASSIGNMENT MANAGEMENT SYSTEM

As an evolving valuation technology company and a thought leader in the CRE valuation industry, Valbridge Property Advisors has developed a robust suite of technology solutions that gives our team the tools they need to drive business and provide the best possible service to our clients. Included in these solutions is V-AMS, Valbridge Property Advisors' proprietary assignment management system. V-AMS was developed to revolutionize the way appraisal assignments are managed, including the bidding, completion, and invoicing of appraisal assignments.

V-AMS FEATURES INCLUDE:
- Client contact management
- Quote management and tracking
- Creation and assignment of new appraisal jobs
- Assignment tracking at appraiser level and firm level
- Invoicing
- Multiple reporting options for quote and job data
- Conflict check features
- Datappraise integration

Valbridge uses data-driven technology to analyze variables that affect value and provide trusted advice to our clients on real estate investment decisions. Learn more at Valbridge.com/technology.
